

Tiptoe Tots

perfect little shoes for perfect little feet

HOW TO FIT TIPTOE SHOES

MEASURING INSTRUCTIONS

1. Measure your child's foot while seated. Do not add room for growth, as ruler takes this into account.
2. Place heel on baseline (see below), measuring the longest toe.
3. If the toe reaches the top of the line size, select the next size up.

When printing, it is important to make sure that the page scaling is set to "none". Otherwise your printer will misrepresent the template.
